# Talent Development Tools

NAED has the tools to help you nurture and grow your employees from the start. By creating a culture of learning in your organization, you have the ability to engage your employees and put them on the right track for success.

## Learning Plans

NAED offers several role-based learning plans to help develop your employees at every step of their career. Roles include: onboarding, counter sales, inside sales, outside sales, warehouse, and finance-credit.

Download full learning plans at [naed.org/learning-plans-job-role](https://naed.org/learning-plans-job-role), or check out pages 23-27 for a full list of courses included in each plan.

## Green To Great

Establish a systematic approach to on-boarding new sales associates and branch managers with a consistent welcome experience. The green-to-great on-boarding program will inspire confidence in the new employee's ability to sell by demonstrating a high-quality professional experience.

BRANCH MANAGER | INSIDE SALES | OUTSIDE SALES

## Employee Compensation Report (COMP report)

Hiring and keeping good employees is essential to the profitability of your business. To achieve this goal, you must consider your overall employee compensation plan – not just your pay scales, but your benefits program as well – in comparison to other distribution firms. You need benchmarks. NAED has joined together with 19 other distribution organizations in sponsoring this large cross-industry compensation study. The 2024 COMP report (based off of calendar year 2023) will be available in May.

## Talent Development Benchmarking Study

The Talent Development Benchmarking Report allows members to view how their talent development practices stack up against other NAED distributor members. Survey results highlight general HR practices, onboarding, organizational statistics, training requirements, talent development spending, and trends in recruiting. (2023 report available for purchase)

## Ways to Get Involved

**Education and Development Council (EDC)** - The EDC guides the NAED Foundation toward leading edge training and education programs, provides a vision on future training and education programs and the industries education and development. The committee meets quarterly on teleconference and has one National meeting. The EDC is made up of human resource and training professionals from electrical distribution and manufacturing companies.

**Futures Group** - The Futures Group is a group of committed leaders coming together to explore the future of the industry and looks at the future through the lens of major societal and economic trends. The Futures Group endeavors to learn about the impact of emerging trends not only on distributors, but on our supplier and customer partners. For more information about the purpose of the Futures Group and to get connected reach out to [futures@naed.org](mailto:futures@naed.org).

# Leadership Development

EMBRACE | EMBODY | EXEMPLIFY

## What Is The NAED Leadership Development Program?

The NAED Leadership Development Program is a twelve-month curriculum specifically designed for developing leaders in the electrical distribution industry. The program is ideal for a manager at any level who needs to refine his or her leadership skills. With a mixture of assessments, one-on-one coaching, live and virtual training, case studies, and peer coaching, this experience blends together learning and development best practices. The program, created in response to key challenges NAED members have identified, will help current and future leaders face issues such as changes in the industry, new technology, and strengthening the customer experience.

## Why Is The Leadership Development Program Important To You?

The electrical distribution industry looks radically different than it did 20 years ago, and it will look radically different in the next decade. The leaders in your organization are going to have to be able to face these changes head on or risk the survival of your businesses. NAED's new leadership development program will help your current and future leaders.

### Competency-Based Curriculum

Strong leadership is not about having one right way of communicating, behaving, or working with others. It is about taking your own unique strengths and leveraging them in a way that works for you and your organization. After interviews with members of NAED and research from trusted institutions around the United States, NAED partnered with Dale Carnegie to develop five leadership competencies which are critical for electrical distribution leaders to embrace, embody, and exemplify to be successful in the future. These competencies are embedded into every component of this leadership program.

**Contact the Member Engagement Team with any questions or visit [naed.org/leadership](http://naed.org/leadership).**

**Grow the company during industry changes**

**Enhance the customer experience**

**Improve employee retention**

**Build emotional intelligence**

**Increase company performance**

**Increase overall employee fulfillment**

**Enhance the workplace culture**

# Leadership Competencies

After interviewing industry leaders from across the country in a wide variety of electrical distribution businesses combined with research from leadership experts, industry experts, and respected consultants across the United States, five key leadership competencies emerged. These competencies are critical for electrical distribution leaders in today's world to embrace, embody, and exemplify if they want to be successful in the industry in the future.

Competency	Embrace	Embody	Exemplify

# Special Interest Development Opportunities

The NAED staff is busy planning development opportunities for a variety of job functions and special interests. Below are brief summaries of these unique industry specific opportunities.

## ◆ Women In Industry Forum

June 3-5, 2024 | Arlington, Texas - Loews Arlington Hotel

NAED's Women in Industry Forum provides an environment for female professionals within electrical distribution to take steps toward advancing their careers by leveraging educational opportunities. This conference is ideal for all females, from entry level to upper management, in the electrical industry. The Forum provides education opportunities for attendees allowing them to connect with senior leadership within industry-leading companies. Stay informed at [naed.org/womeninindustry](https://naed.org/womeninindustry).

## ◆ Adventure Conference

August 6-8, 2024 | Charlotte, North Carolina - Charlotte Marriott City Center

The NAED Adventure Conference is all about the customer experience, and how we in the electrical industry can learn from new business and marketing trends to ensure our customers expectations are exceeded. The Adventure Conference packed with education sessions and keynotes from authors, business and marketing experts, data security specialists, and many more. Stay informed at [naed.org/Adventure](https://naed.org/Adventure).

## ◆ LEAD Conference

October 7-9, 2024 | Kansas City, Missouri - Loews Kansas City Hotel

The Leadership Enhancement and Development (LEAD) Conference mission is to provide a forum to develop the electrical industry's current and emerging leadership. With education, training, advocacy, and networking serving as cornerstones, LEAD strives to prepare NAED members and affiliates for active participation, growth, and leadership within their own organizations, as well as in the electrical industry. Stay informed at [naed.org/lead](https://naed.org/lead).

## ◆ eBiz Conference hosted by IDEA & NAED

TBD

The **eBiz Conference** brings together the digital and technology decision makers in electrical distribution and manufacturing. Through networking, education, and one-on-one sessions, attendees gain a competitive edge while learning how and why to enhance their product data syndication and digital automation processes.

## ◆ University of Innovative Distribution

March 11-14, 2024 | Indianapolis, Indiana

The University of Innovative Distribution (UID) is a concentrated educational program focused on the unique needs of the wholesale distribution industry.
